PERSONAL PROJECTS

College Space (12/2021 - 02/2022)

- A full stack MERN web app specifically built to connect people of college where past year paper, subject notes can be shared along with connecting juniors with alumni.

Face Mask Detection Web App (07/2021 - 09/2021)

- To enforce the mandate for wearing masks following covid19 norms, the most efficient algorithm for face mask detection was found and implemented after comparative analysis of various algorithms. Yolo, MobileNetV2 and Voila Jones algorithm were compared and MobileNetV2 was used for implementation.

Cocktailer - Alexa Skill (05/2021 - 05/2021)

- Cocktailer is an Alexa Skill app built with JavaScript. It gives instructions to prepare any cocktail and also suggests random cocktail names and how to make them. It also suggests cocktail that can be prepared from any particular ingredients that we have along with recipe to prepare it.
